

1. FEATURES

- Kit includes connectors and terminals for testing major automotive electric systems
- Can be used with a digital multi-meter
- Universal application

2. SAFETY PRECAUTIONS

CAUTION

- Always read carefully the manual before working
- This tool kit is for testing electric systems on vehicles ONLY
- Ensure the working area has adequate lighting
- Keep children and unauthorized persons away from the working area
- Keep working area clean and tidy, dry and free from unrelated materials
- DO NOT allow untrained persons to use this tool kit
- Always wear eye protection that meets OSHA and ANSI Z87.1 standards
- Always wear hand gloves when work with the tool
- Always wear ear protection
- Disposal: Customers should follow local regulations or entrust local organization to handle used/wasted parts

3. SPECIFICATION

Potentiometer with variable resistor (2 pcs)

The adjustable resistance helps various tests, esp. for temperature sensors for coolant and engine oil.

250V; 10A

Stroboscope (2 pcs)

The LED light flashes when receiving pulsing signals. Useful for testing Hall Effect sensor, injectors and electromagnetic valves. The 2-color light emits green light when connected correctly. Otherwise, it would be red. Useful for detecting positive side of the circuit.

24V; 10A

Acicular Probe (black & red) (4 pcs)

The needle-shaped probes are very useful when testing objects that are located in a very confined space. They can also pierce through insulation without causing major damages to the wires.

600V; 10A

Alligator Clip (black & red) (2 pcs)

Tested parts can be connected to other wires, probes or cables with alligator clips.

600V; 10A

SRS Connector (2 pcs)

Mainly for testing air bags or safety seat belt retractors.

250V; 0.25A

Probe (black & red) (2 pcs)

The probes can function as an extension cable for DMM or other wires.

600V; 10A

1 to 2 Connector (2 pcs)

The connector is able to divert a circuit into two ways.

600V; 10A

1 to 1 Connector (black & red) (4 pcs)

The socket in the connector can function as an extension cable.

600V; 10A

Flat female terminals 0.8*6.0
Blue (3 pcs)

Flat male terminals 0.6*1.9
Blue (3 pcs)

Flat female terminals 0.8*4.7
Black (3 pcs)

Flat male terminals 0.6*1.3
Black (3 pcs)

Flat female terminals 0.8*2.8
